It has been accepted for inclusion in Campus Council Records by an authorized administrator of Open Works. For more information, please contact openworks@wooster.edu.

The membership committee of Campus Council has met over the Fall semester and beginning of Spring semester 1996-1997 academic year. The group addressed specific concerns facing Council. Such concerns included the need for Council to be more efficient. The need for Council to be representative of the full concerns of the campus community was also addressed. Additionally, the committee finds that the organizations seated on Council should be chartered organizations which represent student concerns- not simply special interest groups. The effect Campus Council has on the groups activities (not merely monetarily) was also a factor. Furthermore, the group finds that no one student organization should possess multiple seats on Campus Council. In lieu of the discussions, the committee would like to present the following recommendation to Council:

- the removal of one Student Activities Board seat,
- the removal of one Wooster Volunteer Network seat,
- the removal of one Student Government Association seat,
- the removal of one Member-at-Large seat, and
- the removal of two Faculty seats

With the above mentioned recommendation, the size of Campus Council will decrease from eighteen (18) to twelve (12) members. The membership would include six (6) student positions, three (3) administrative positions and three (3) faculty positions. By enacting the said recommendation, the committee believes Council will run more efficiently while keeping a proportional balance.
